

## Promotion / Discount Codes

Promotion / Discounts can be used for a variety of incentives, such as early bird, promotions, group bookings, cash type payments and online bookings.

Whilst your patrons are transitioning to online booking, Promotion / Discount codes can be used to give you the flexibility to handle cash, cheque and offline credit card payments so your reporting still accurately reflects the total sales for your event.

After your event is over consider adding your Door Sales as a Promotion / Discount code. This gives you a complete historical view of the event plus updates the total revenue analysis.

Each Event can have unique Promotion / Discount codes. Setting up and managing Promotion / Discount codes can be found under **Manage Events** and then within each Event and then under **Pricing Groups**.

### Adding Promotion / Discounts:

1. Under **Pricing Groups**, select the desired pricing group and then click on Add Promotion / Discounts.

#### Pricing Group Details

Please enter the name of this pricing group

**Pricing Group Name:**

Please enter a brief description for this pricing group

**Description:**

---

**Ticket Price:**

To be able to collect payment, you should have at least one ticket type

	Ticket Name	Description	Quantity	Value (GBP)	Header
<input type="checkbox"/>	<a href="#">Adult</a>	Adult	1	48.60	
<input type="checkbox"/>	<a href="#">Concession</a>	Concession Holders	1	32.70	
<input type="checkbox"/>	<a href="#">AdultG</a>	For Groups of 10 or more	1	40.00	

---

**Promotions(Discounts):**

Promotion codes are used to apply a discount to the tickets. eg: complimentary tickets or cash sales. The promotion code is used at the shopping cart. The promotion codes add here will only work in conjunction with the tickets (above) from this pricing group.

	Promotion	Promotion Code	Start Date	End Date	Value	Percentage?	Auto Apply?
<input type="checkbox"/>	<a href="#">Cash</a>	Bookings10	10Nov2009	5Nov2010	100.00	Yes	No

---

Select a ticket style from the list below

**Ticket Style:**

After clicking *Add Promotion / Discount*, the below screen will appear.

Discount

Discount Name:

Discount Code:

Please indicate whether or not this discount is in percentage.

Percentage:

Please enter the value of the discount.  
Note: If the discount is a percentage, then eg: 10% is 10.0

Value:

Enter the date range for which this Discount code can be used (M/d/yyyy) .

Start Date:

End Date:

You can have this Discount applied automatically to the tickets without the user needing to enter the above code:

Auto Apply:

- **Promotion / Discount Name:** name that will show on your reports.
- **Promotion / Discount Codes:** make sure you keep these codes secret otherwise you may find you have people coming to your event at your reduced rate.
- **Percentage:** select *YES* if you wish to apply a constant percentage Promotion / Discount to all tickets. Eg. If patrons book before a certain date, a Promotion / Discount incentive may be 50% off all tickets. The example in the box above of 100% would be used for recording Door Sales or if you have accepted cash for the tickets and need to update your records. (This is explained further in *Handling Offline Payments*)
- **Value:** is a defined amount you wish to discount from each ticket. Eg. Offering a £20 discount for group bookings
- **Start and End Date:** Promotion / Discounts can be set to commence or stop on a particular date.
- **Auto Apply:** If you select *YES*, patrons will automatically receive the Promotion / Discount within the defined date range. Alternatively, you can use a promotional discount code which can be entered and applied as they reach the booking shopping cart.

You can enter as many Promotion / Discount codes that you require. Then click *Save* to keep the Promotion / Discounts. If you have made a mistake, you can go back and **Edit** or **Remove Promotion / Discount**.

## Handling Offline Payments

Whilst making the transition to an online system, you may still need to accept cash, cheque or manual credit card payments (Offline Payments). It is important to keep accurate records within TryBooking to ensure a true reflection of money collected is maintained.

There are numerous strategies you can use to encourage patrons to book online. Please read our Fact Sheet *Managing Change to Online Bookings which was emailed to after your account was created*, which explains how to promote and publish your event to reduce cash payments.

Give your patrons a reason to try your online processing, maybe add a small box office fee for handling such manual payments is a simple way to help encourage them to make the change. Box office fees can be added via Manage Events, select your event and then Box Office Fees.

Whether it is a cash, cheque, manual credit card or door sales, they are all transactions that DO NOT pass through TryBooking merchant facilities. They are set up and processed in a similar manner, using Promotion / Discount codes which is explained below.

### Setting up Offline Payments:

- Firstly you will need to set up a Promotion / Discount code within your TryBooking account. Under **Pricing Groups** on the Event Page, **Add Promotion / Discount**. Remember this Promotion / Discount code is not to be shared with anyone.
- Enter the **Promotion / Discount Name, Code** and nominate 'Yes' as a percentage to the **Value** of 100. Enter the expiry date of your event. Click 'No' to **Automatically Apply**. It is very important that you do not make this discount **Automatically Apply**, otherwise every transaction that is processed with TryBooking will have a 100% discount.
- Collect the relevant details of the customer you are processing the transaction for including the email address as this is where the tickets will be sent.
- Now, process bookings as normal up to the **Shopping Cart** page, where you will need to enter the Promotion / Discount code as set above and click **APPLY**. You should notice that the amount charged has now reverted to £0. As you have already collected this money, the booking fee of 15 pence will not apply.

The following code/s have been applied: CASH

As you click 'Apply' to your discount code, the total price becomes 0.00.

Item	Value	Quantity	Fee	Discount	Total	
<b>JUNIOR SCHOOL BALL</b>						
July 16, 2014 07:00 - Table 1						
<b>Adult - A1</b> CASH (10.00)	10.00	1	0.00	10.00	0.00	✕
<b>Total</b>					0.00	
					Tickets:	10.00
					TryBooking Fee:	0.00
					Miscellaneous:	0.00
					Discounts:	(10.00)
If you have a Gift Certificate or the event organiser has published a special Promotion Code you can enter it below otherwise leave it blank.						
Gift/Promotion Code:		cash	Apply		Total:	GBP 0.00

## Reports for Offline Payments

Using a different Promotion / Discount code for cash, cheque and manual credit card payments ensures you still receive an overall outcome of your total revenue for that particular event. From the report, **Event Revenue Itemised** there will be a listing of total tickets sold, total tickets and payments taken as cash.

Event Revenue Itemised			
Event Name: Night of the Stars			
Total Bookings: 4			
Item	Tickets	Amount	
Tickets			
adult	2	43.40	
child	2	19.40	
Family	8	79.40	
	12	142.20	Total Ticket Sales and Ticket Count by Ticket Type
Discounts			
CASH - 100.00%	1	(21.70)	
CHEQUE - 100.00%	1	(21.70)	
MANUAL CREDIT CARD - 100.00%	2	(19.40)	
	4	(62.80)	Total tickets sold via Cash, Cheque and manual credit card
Credit Card Fees			
Amex	12	(2.17)	
	12	(2.17)	
<b>Total:</b>		<b>77.23</b>	This is the value of Total Revenue – Discounts – Credit Card fees and will be what Trybooking is holding in your account.

**Tip:** If you are to take door sales, consider putting these into TryBooking to establish a full record of bookings and revenue for later reference.
